

How many clowns can you find? Point the cross toward clown A, and you will find 12. But one is lost!

Sharing the Gospel is as simple as pointing the cross toward clown B. Count again. Now there are 13!

The lost has been found!

Every soul is a circus,  
And every life is a tent.  
So be a fool for Jesus,<sup>1</sup>  
And smile wherever you're sent!

For God will use the foolish,<sup>2</sup>  
Yes, reach out and clown around.  
Use all your gifts for Jesus,  
Seek and the lost shall be found!<sup>3</sup>

<sup>1</sup>1 Cor. 4:10    <sup>2</sup>1 Cor. 1:27    <sup>3</sup>1 Cor. 1:18

*This puzzle may be freely downloaded from [kistlerministry.org/magic](http://kistlerministry.org/magic) and reproduced for personal use. All manufacturing and marketing rights are reserved. Directions:

1. Copy both pages on lightweight card stock or heavy paper.
2. Cut out the large inner disc (below) and fasten it by the center to the outer disc on the first page so that the inner disc rotates freely.
3. Point the cross to clown A and count the clowns. Now rotate the disc so the cross points to clown B and count them again (see smaller diagrams above).
